Dear Mr. Weisberg:

It was nice to hear from you again. My campaign for the Vice-Presidency took me to nearly every state in the Union. The contact with Americans from every walk of life solidified my view that this land is great because of its people.

I hope our leadership, at every level of government, reflects the basic integrity and energy of the people. I will continue to work for the ideals and individuals who exemplify the best of America.

Sincerely,

Sargent Shriver
